

projects have been sourced from Arizona Geological Society Mining Data – an online data base. Data includes previous operators drill logs, assay certificates and various maps.

Significant Results

Eighteen rock chip samples collected in the Bull North and Roadside areas assayed from 0.01 to 3.54 g/t Au, with 6 of the 18 samples returning values of 0.46, 0.66, 1.39, 2.01, 2.12 and 3.54 g/t Au. 22 historic drill holes are scattered over a 400 meter by 400 meter area in the Bull North area. The drilled area is wide open to the west and south where two southern drill holes encountered 18.2 m of 1.71 g/t Au and 27.4 m of 0.65 g/t Au. Another drill hole, located over 150 metres to the east of the above two holes, and collared in shallow alluvium, returned 16.7 m of 0.62 g/t Au. To the south, at the Roadside area, 23 historic drill holes were drilled in a roughly 50 metres by 100 metres target area. Reported intercepts from this drilling include 16.7 m @ 1.10 g/t Au, 19.8 m @ 1.03 g/t Au and 18.2 m @ 1.27 g/t Au. One hole drilled in the southeastern portion of the area, within the granitic basement rocks, returned 3 m of 3.98 g/t Au. Scans of historic results from the Bull North and Roadside project have been sourced from Arizona Geological Society Mining Data - on line data base. Data includes previous operators drill logs, assay certificates and various maps.

Planed Work Program

The Company plans to conduct further sampling geological mapping and geophysics for the purpose of new target identification in the coming months, with drilling to follow complete evaluation.

Michael Collins, P.Geo. and V.P. Exploration and Development for Confederation Minerals is the qualified person for Confederation Minerals and has reviewed and approved this project description. Drill results, sample and technical data are not National Instrument 43-101 compliant and historic in nature. The results have not been verified by the Company and are provided for context only and should not be relied upon for any evaluation of the properties or project or for any investment decision.
