### **1. NATURE OF OPERATIONS AND CONTINUANCE OF OPERATIONS**

The Company was incorporated on November 3, 2005 under the Business Corporations Act (British Columbia) as "Medina Ventures Inc.", changed its name to "Sienna Minerals Ltd." on April 26, 2006 and changed its name to Confederation Minerals Ltd. on April 11, 2007. The Company's principal business activity is the exploration of exploration and evaluation assets.

The Company is in the process of exploring its exploration and evaluation assets and has not yet determined whether its exploration and evaluation assets contain mineral reserves that are economically recoverable. The Company's continuing operations, and the recoverability of the amounts shown for exploration and evaluation assets are entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its exploration and evaluation assets, and on future profitable production or proceeds from the disposition of the exploration and evaluation assets.

The business of exploring for and mining of exploration and evaluation assets involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations.

The financial information is presented in Canadian Dollars (CDN\$), which is the functional currency of the Company.

The head office and principal address of the Company are located at Suite 1980, 1075 West Georgia Street, Vancouver, British Columbia, V6E 3C9.

### **2. BASIS OF PRESENTATION**

#### **Statement of compliance**

These condensed consolidated interim financial statements for the nine months ending March 31, 2013 have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with IFRS as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"), on a basis consistent with the significant accounting policies disclosed in note 2 of the most recent annual consolidated financial statements as at and for the year ended June 30, 2012 as filed on SEDAR at [www.sedar.com](http://www.sedar.com). These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements and were approved and authorized for issue by the Board of Directors on May 29, 2013.

#### **Basis of measurement**

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as at fair value through profit or loss ("FVTPL") and available-for-sale that have been measured at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

#### **Critical accounting estimates and assumptions**

The preparation of consolidated interim financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. Financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and the revision affects both the current and future periods.

The preparation of consolidated interim financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. Financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and the revision affects both the current and future periods.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the balance sheet date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- (a) The purchase price allocation. Business acquisitions are accounted for by the acquisition method of accounting whereby the purchase price is allocated to the assets acquired and the liabilities assumed based on fair value at the time of the acquisition. The excess purchase price over the fair value of identifiable assets and liabilities acquired, if any, is goodwill. The determination of fair value often requires management to make assumptions and estimates. The assumptions and estimates with respect to determining the fair value of property, plant and equipment acquired generally require a high degree of judgment. Changes in the assumptions or estimates used in determining the fair value of acquired assets and liabilities could impact the amounts assigned to assets, liabilities and goodwill, if any, in the purchase price allocation.
- (b) The inputs used in accounting for share purchase option expense in the consolidated interim statements of operations and comprehensive loss.
- (c) The provision for income taxes which is included in the consolidated statements of operations and comprehensive loss and composition and quantification of deferred income tax assets and liabilities included in the consolidated statements of financial position.
- (d) The recoverability of exploration and evaluation assets in the consolidated statements of financial position.

### **2. BASIS OF PRESENTATION (continued)**

#### **New Accounting Standards and Interpretations**

The following standards have been issued but are not yet effective. They may result in future changes to accounting policies and other note disclosures.

##### **(a) IFRS 9, Financial Instruments**

IFRS 9 Financial Instruments is part of the IASB's wider project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. The standard is effective for annual periods beginning on or after January 1, 2015.

##### **(b) IFRS 10, Consolidated Financial Statements**

IFRS 10 builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company. The standard provides additional guidance to assist in the determination of control where this is difficult to assess. The Company is yet to assess the full impact of IFRS 10 is required to adopt the standard no later than the accounting period beginning on or after January 1, 2013

##### **(c) IFRS 11, Joint Arrangements**

IFRS 11 describes the accounting for arrangements in which there is joint control; proportionate consolidation is not permitted for joint ventures (as newly defined). IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC 13 Jointly Controlled Entities — Non-Monetary Contributions by Venturers. The Company has yet to assess the full impact of IFRS 11 and is required to adopt the standard no later than the accounting period beginning on or after January 1, 2013.

##### **(d) IFRS 12, Disclosure of Interests in Other Entities**

IFRS 12 includes the disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. The Company has yet to assess the full impact of IFRS 12 and is required to adopt the standard no later than the accounting period beginning on or after January 1, 2013

##### **(e) IFRS 13 Fair Value Measurement**

IFRS 13 aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs. The requirements, which are largely aligned between IFRSs and US GAAP, do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRSs or US GAAP. . The Company has yet to assess the full impact of IFRS 13 and is required to adopt the standard no later than the accounting period beginning on or after January 1, 2013.

##### **(f) IFRS 7, Financial Instruments: Disclosures**

Amendments to IFRS 7, provides disclosure requirements for the offsetting of a financial asset and financial liabilities when offsetting is permitted under IFRS. The disclosure amendments are required to be adopted retrospectively for periods beginning January 1, 2013.

### **2. BASIS OF PRESENTATION (continued)**

#### (g) IAS 19 – Employee Benefits

Amendments to IAS 19 provide new requirements for the accounting for defined benefit pension plans. Most notably, the amendments mandate the immediate recognition of actuarial gains and losses, and require companies to use the same discount rate for both the defined benefit obligation and the expect asset return when calculating the interest component of pension expense. The Company does not believe the adoption of IAS 19 will materially affect its financial performance or its financial position.

#### (h) IAS 32 – Financial Instruments: Presentation

Amendments to IAS 32 provide specific guidance for when an entity can offset financial assets and liabilities by clarifying when a legally enforceable right to do so exists, when an entity meets the criterion for the intent to settle on a net basis. These amendments are effective for annual periods beginning after January 1, 2014. The Company does not believe the amendments to IAS 32 will materially affect its financial performance or its financial position.

### **3. SHORT-TERM INVESTMENT**

As at March 31, 2013, the Company has short-term investment of \$2,707,390 of principal including \$7,390 of interest. The short-term investment has an annual yield of prime minus 1.8% (June 30, 2012 - \$7,440,000 and interest of \$40,005).

As at June 30, 2012, the Company's subsidiary Magna had short-term investment of \$1,475,000 of principal and \$7,770 of interest due on January 18, 2013 which was deconsolidated at December 19, 2012 (see note 5).

### **4. BUSINESS ACQUISITION**

On November 21, 2011, the Company and Magna Resources Ltd. ("Magna") signed a purchase and sale agreement whereby the Company sold to Magna the 50% interest in American Potash LLC then held by the Company ("Purchase and Sale Transaction"). Under the terms of the agreement Magna completed a 2 for 1 subdivision of its outstanding common shares, resulting in the Magna having 22,420,000 common shares being issued and outstanding immediately prior to closing of the Purchase and Sale Transaction.

As consideration for the purchase, Magna issued 22,420,000 common shares (the "Magna Shares") and 2,400,000 common share purchase warrants of Magna ("Purchase Consideration"). Each warrant entitles the Company to purchase a further common share at a price of \$0.10 until February 25, 2016. Under IFRS 3, the Magna Shares were measured using the acquisition-date fair value. As a result, a discount from the deemed value of \$0.20 per share has been applied due to a lack of marketability of Magna's shares which resulted in the fair value of the Magna Shares being determined at \$0.06 per share.

On January 19, 2012 the Purchase and Sale Transaction was completed. As a result of the Purchase and Sale Transaction, the Company effectively controlled Magna and Magna holds a 100% interest in American Potash, which holds potash leases and an option in respect of potash lease applications in the State of Utah.

**4. BUSINESS ACQUISITION (continued)**

The Purchase and Sale Transaction was accounted for in accordance with IFRS 3, Business Combination, and the Company is considered to be the accounting acquirer. The purchase price allocation is listed below:

<b>Consideration</b>	<b>\$</b>
Fair value of 50% interest in American Potash	1,299,200
	<u>1,299,200</u>
<b>Fair Value of Net Asset Acquired</b>	
Receivables	12,413
Prepaid	10,095
Bank indebtedness	(27,648)
Trade and other payables	(223,132)
Loan	(296,611)
Exploration and evaluation costs	2,801,633
Intangible assets	322,810
Non-controlling interest	(1,300,360)
	<u>1,299,200</u>

The fair value of the 50% interest of American Potash is determined based on the fair value of the Purchase Consideration on January 19, 2012. Any goodwill recognized on acquisition is attributed to the expected value of the potash properties held by American Potash and is included in exploration and evaluation assets. The non-controlling interest is measured based on the fair value of shares of Magna held by non-controlling shareholders right after this transaction.

Magna contributed to revenue of \$Nil and loss of \$859,817 to the Company's result from January 20, 2012 to June 30, 2012.

Acquisition related cost of \$86,000 is reported as legal expenses in the June 30, 2012 consolidated statements of operation and comprehensive loss.

In addition to Purchase and Sale Transaction, the Company subscribed for 6,666,666 common shares of Magna at \$0.30 per share for gross proceeds to Magna of \$2,000,000. As at September 30, 2012, Magna has an aggregate of 51,506,666 common shares and 4,800,000 common share purchases warrants exercisable at \$0.10 per share issued and outstanding (on a non-diluted basis) and the Company holds 56.47% of the shares and 50% of the warrants in Magna.

Prior to the completion of the Purchase and Sale Transaction on January 19, 2012, the assets and liabilities relating to the 50% interest in American Potash are presented as assets and liabilities held for sale by the Company.

**5. ASSETS HELD FOR DISTRIBUTION TO SHAREHOLDERS**

On December 19, 2012, the Company received an order from the Supreme Court of British Columbia approving the distribution (the "Distribution") of 21,086,656 common shares (the "Magna's Shares") in the share capital of Magna Resources Ltd. ("Arrangement"), being an approximate 40.94% interest in Magna, on a pro rata basis to the Company's shareholders. Upon completion of the Distribution, the Company's ownership interest in Magna decreased from approximately 56.47% to approximately 16%. As of December 19, 2012, the Company determined that it no longer controlled Magna, and, as a result, would no longer consolidate the operations of Magna. As a result, the Company derecognized the carrying amounts of assets, liabilities and non-controlling interest related to Magna and recognized its retained investment in Magna at its fair value as at the date of deconsolidation of Magna. The difference between the fair and carrying values at the date of deconsolidation was recorded as a loss of \$654,329 on the statement of operations and comprehensive loss, as the Company was required to recognize the fair value of the Magna's net assets which had a book value of \$1,982,280 and contributed surplus of \$710,221 and accumulated comprehensive income of \$16,834. The fair value was based on 40.94% of fair market value of Magna. The spin out was accounted for as a return of capital with a \$634,564 charge to share capital.

The fair value of the Magna shares transferred under the Distribution is summarized in the table below:

	December 19, 2012
	\$
Cash	54,897
Short term investment	930,037
Prepaid	25,123
Accounts receivable	44,368
Intangibles	659,278
Mineral Properties	96,667
Accounts payable and accrued liabilities	(260,370)
<b>Fair value of the Magna's net assets</b>	<b>1,550,000</b>
<b>Fair value of the net assets distributed to shareholders</b>	<b>634,564</b>

The fair value of the 8,000,000 shares retained by the Company was valued at \$426,313 and recognized as marketable securities designated as available-for-sale instruments. During the period ended December 31, 2012, the Company recognized an unrealized holding gain of \$373,687 (June 30, 2012 - \$nil). At the end of the nine months ending March 31, 2013, the Company's unrealized holding gain had decreased to \$173,687.

### **6. EXPLORATION AND EVALUATION ASSETS (continued)**

To exercise the option to earn an initial 50% interest, the Company is required to incur a cumulative of \$5,000,000 of work expenditures on the Property, issue to Redstar a total of 500,000 shares of the Company and make payments to Redstar totalling \$250,000 in the following manner:

- (a) 100,000 shares (issued) and a \$50,000 payment (paid) within 10 business days of approval of the Agreement by the TSX Venture Exchange (December 22, 2010);
- (b) work expenditures of \$2,000,000 (incurred), 100,000 shares (issued) and a further \$50,000 payment (paid) on or before the first anniversary of the Agreement;
- (c) further work expenditures of \$1,500,000 (incurred), a further 150,000 shares (issued) and a further \$75,000 payment (paid) on or before the second anniversary of the Agreement; and
- (d) further expenditures of \$1,500,000 (incurred), a further 150,000 shares and a further \$75,000 payment on or before the third anniversary of this Agreement.

To exercise the option to earn a further 20% interest, thereby increasing its overall interest to 70%, the Company will be required to produce, at its own cost, a preliminary assessment of the Property and issue a further 500,000 shares to Redstar on or before the sixth anniversary of the Agreement, subject to minimum annual expenditures of \$250,000 during the last three years of the option period. The parties also have agreed to form a joint venture following the exercise of the option by the Company. The Property is subject to a two percent net smelter return and a fifteen percent net carried interest. The latter interest does not receive payment until capital expenditures have been recovered with interest. A finder's fee of \$132,500 was paid with respect to the Newman Todd project by cash of \$66,250 and issuance of 228,448 shares at a fair value of \$0.29.

On April 14, 2011, the Company and Redstar entered into a purchase agreement with Ronald Gangloff ("Gangloff") to purchase a fifty percent (50%) interest in 18 mineral claims immediately adjacent to the Newman Todd Project. Of the 50% interest acquired, the Company has acquired an undivided 35% interest in the claims for a sum of \$50,000 (paid May 25, 2011) and 125,000 shares (issued May 12, 2011) and Redstar acquired an undivided 15% interest in the claims for the sum of \$70,000.

#### **Confederation Lake (Mitchell & Belanger) Claims, Ontario**

On February 10, 2006, as amended on August 31, 2006, December 14, 2006, February 10, 2009 and March 23, 2010, the Company entered into an option agreement to acquire a 100% interest in 26 mining claims (184 units) located in the Red Lake Mining District of Ontario by making cash payments of \$70,500 (paid) and issuing 430,000 shares (issued) to Rubicon Minerals Corporation and Perry English.

Although the Company still holds the claims, during the year ended June 30, 2011, management decided to abandon these claims for accounting purposes and wrote off \$660,583 costs incurred to date.

**7. SHARE CAPITAL (continued)****e) Stock Options (continued)****Fiscal 2012**

On July 25, 2011, 150,000 incentive stock options were granted to an officer, exercisable at \$0.84 per share on or before July 25, 2016, 100% vesting immediately. A total of \$99,049 of share-based payment was recorded during the year ended June 30, 2012 for these options.

On January 1, 2012, the Company engaged a consultant to perform investor relations services. The Company granted the consultant 150,000 options, exercisable at \$0.47 per share on or before January 1, 2014, with 8.33% vesting each month. The investor relation agreement was terminated on May 1, 2012 and the entire 150,000 options were forfeited on June 1, 2012. A total of \$17,266 of share-based payment was recorded during the year ended June 30, 2012 for these options.

On January 30, 2012, the Company granted stock options, exercisable to purchase up to an aggregate of 2,000,000 shares of the Company, to directors and consultants of the Company. The options are all exercisable at the price of \$0.57 per share until January 30, 2017. All options were vested immediately at grant date. A total of \$947,925 of share-based payment was recorded during the year ended June 30, 2012 for these options.

On March 16, 2012, 400,000 incentive stock options were granted to an officer, exercisable at \$0.54 per share on or before March 16, 2017, 100% vesting immediately. A total of \$183,445 of share-based payment was recorded during the year ended June 30, 2012 for these options.

**Fiscal 2013**

On September 1, 2012, 200,000 incentive stock options were granted to a consultant, exercisable at \$0.45 per share on or before September 1, 2014, with 25% vesting every 3 months. The exercise price is greater than the market price at the date of grant. Using the graded vesting method, a total of \$16,912 of share-based payment was recorded to date.

Subsequent to quarter-end, the Company granted 350,000 options to a consultant, of which 200,000 options are exercisable at \$0.22 on or before April 1, 2015 and 150,000 options are exercisable at \$0.30 on or before April 1, 2015.

Subsequent to quarter-end, 100,000 stock options expired unexercised.

Option-pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility. Changes in the underlying assumptions can materially affect the fair value estimates and therefore in management's opinion, existing models do not necessarily provide a reliable measure of the fair value of the Company's stock options.
