Condensed Consolidated Interim Financial Statements

First Quarter Ended September 30, 2013

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

NOTICE OF NO AUDITOR REVIEW OF CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

The accompanying unaudited interim financial statements of Confederation Minerals Ltd. for the three months ended September 30, 2013, have been prepared by the management of the Company and approved by the Company's Audit Committee and the Company's Board of Directors.

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indication that an auditor has not reviewed the financial statements.

The accompanying unaudited interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of the interim financial statements by an entity's auditor.

CONFEDERATION MINERALS LTD.

Notes to the Condensed Consolidated Interim Financial Statements

For the year ended June 30, 2013

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

1. NATURE OF OPERATIONS AND CONTINUANCE OF OPERATIONS

The Company was incorporated on November 3, 2005 under the Business Corporations Act (British Columbia) as “Medina Ventures Inc.”, changed its name to “Sienna Minerals Ltd.” on April 26, 2006 and changed its name to Confederation Minerals Ltd. on April 11, 2007. The Company’s principal business activity is the exploration of exploration and evaluation assets.

In January 2012, the Company acquired control of Magna Resources Ltd. (“Magna”). In December 2012, the Company disposed of its controlling interest in Magna through a distribution of Magna shares to the Company’s shareholders (note 7).

The Company is in the process of exploring its exploration and evaluation assets and has not yet determined whether its exploration and evaluation assets contain mineral reserves that are economically recoverable. The Company’s continuing operations, and the recoverability of the amounts shown for exploration and evaluation assets are entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its exploration and evaluation assets, and on future profitable production or proceeds from the disposition of the exploration and evaluation assets. Management believes they have sufficient working capital to maintain the next twelve months of operations.

The business of exploring for and mining of exploration and evaluation assets involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations.

The financial information is presented in Canadian Dollars (CDN\$), which is the functional currency of the Company.

The head office and principal address of the Company are located at Suite 1980, 1075 West Georgia Street, Vancouver, British Columbia, V6E 3C9.

2. BASIS OF PRESENTATION

Statement of compliance

These condensed consolidated interim financial statements for the three months ending September 30, 2013 have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”) using accounting policies consistent with IFRS as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”), on a basis consistent with the significant accounting policies disclosed in note 2 of the most recent annual consolidated financial statements as at and for the year ended June 30, 2013 as filed on SEDAR at www.sedar.com. These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements and were approved and authorized for issue by the Board of Directors on November 27, 2013.

Basis of measurement

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as at fair value through profit or loss (“FVTPL”) and available-for-sale that have been measured at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

CONFEDERATION MINERALS LTD.

Notes to the Condensed Consolidated Interim Financial Statements

For the year ended June 30, 2013

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

2. BASIS OF PRESENTATION (continued)**Critical accounting estimates and assumptions**

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive loss/income in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

Exploration and Evaluation Expenditures

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after the expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized is written off in the profit or loss in the period the new information becomes available.

Income Taxes

Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Company recognizes liabilities and contingencies for anticipated tax audit issues based on the Company's current understanding of the tax law. For matters where it is probable that an adjustment will be made, the Company records its best estimate of the tax liability including the related interest and penalties in the current tax provision. The Company believes it has adequately provided for the probable outcome of these matters; however, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

In addition, the Company recognizes deferred tax assets relating to tax losses carried forward to the extent there are sufficient taxable temporary differences (deferred tax liabilities) relating to the same taxation authority and the same taxable entity against which the unused tax losses can be utilized. However, utilization of the tax losses also depends on the ability of the taxable entity to satisfy certain tests at the time the losses are recouped.

CONFEDERATION MINERALS LTD.

Notes to the Condensed Consolidated Interim Financial Statements

For the year ended June 30, 2013

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

2. BASIS OF PRESENTATION (continued)

Share-based Payment Transactions

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in note 8.

New Accounting Standards and Interpretations

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for the Company's fiscal years beginning on or after July 1, 2013. The following standards and interpretations are relevant to the Company's financial statements but are not yet effective:

IFRS 9 Financial Instruments

IFRS 9 Financial Instruments is part of the IASB's wider project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. The standard is effective for annual periods beginning on or after January 1, 2015 but is not likely to have a material impact on the Company's financial statements.

There are no other IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company.

3. SHORT-TERM INVESTMENT

As at September 30, 2013, the Company has short-term investment of \$1,256,560 of principal including \$6,560 of interest. The short-term investment has an annual yield of prime minus 1.8% (June 30, 2013 - \$1,810,985 and interest of \$10,985).

4. MARKETABLE SECURITIES

		<u>Cost</u>	<u>Fair Value</u>
		\$	\$
Magna Resources Inc. - shares	8,000,000	426,313	1,520,000

Balance - September 30, 2013		426,313	1,950,000

CONFEDERATION MINERALS LTD.

Notes to the Condensed Consolidated Interim Financial Statements

For the year ended June 30, 2013

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

4. MARKETABLE SECURITIES (continued)

On December 19, 2012, the Company received an order from the Supreme Court of British Columbia approving the distribution of 21,086,656 Magna common shares to the Company's shareholders (note 7). The fair value of the 8,000,000 shares retained by the Company was determined at \$426,313 and recognized as marketable securities designated as available-for-sale instruments. During the three months ended September 30, 2013, the Company recognized an unrealized holding gain of \$480,000 (June 30, 2013 - \$549,687, net of deferred taxes of \$64,000).

At distribution, the Company retained 2,400,000 share purchase warrants that were acquired during the business acquisition. These warrants were valued at \$430,000 at September 30, 2013 (June 30, 2013 - \$300,000) using the Black-Scholes pricing model using the following assumptions:

Dividend yield	0%
Risk-free interest rate	1.42%
Estimated volatility	232%
Expected life in years remaining	2.42

5. RECEIVABLES

	September 30, 2013	June 30, 2013

	6,986,492	3,830,573	10,817,065	987,896	11,804,961

Pursuant to an option agreement dated November 19, 2010 with Redstar Gold Corp. ("Redstar"), the Company was granted an option to acquire up to 70% of Redstar's Newman Todd project (the "Newman Todd Project"), located in the Red Lake Mining District of Northern Ontario.

To exercise the option to earn an initial 50% interest, the Company is required to incur a cumulative of \$5,000,000 of work expenditures on the Property, issue to Redstar a total of 500,000 shares of the Company and make payments to Redstar totalling \$250,000 in the following manner:

- (a) 100,000 shares (issued) and a \$50,000 payment (paid) within 10 business days of approval of the Agreement by the TSX Venture Exchange (December 22, 2010);
- (b) work expenditures of \$2,000,000 (incurred), 100,000 shares (issued) and a further \$50,000 payment (paid) on or before the first anniversary of the Agreement;

CONFEDERATION MINERALS LTD.

Notes to the Condensed Consolidated Interim Financial Statements

For the year ended June 30, 2013

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

6. EXPLORATION AND EVALUATION ASSETS (continued)

- (c) further work expenditures of \$1,500,000 (incurred), a further 150,000 shares (issued) and a further \$75,000 payment (paid) on or before the second anniversary of the Agreement; and
- (d) further expenditures of \$1,500,000 (incurred), a further 150,000 shares (issued subsequent to quarter-end) and a further \$75,000 payment (paid subsequent to quarter-end) on or before the third anniversary of this Agreement.

To exercise the option to earn a further 20% interest, thereby increasing its overall interest to 70%, the Company will be required to produce, at its own cost, a preliminary assessment of the Property and issue a further 500,000 shares to Redstar on or before the sixth anniversary of the Agreement, subject to minimum annual expenditures of \$250,000 during the last three years of the option period. The parties also have agreed to form a joint venture following the exercise of the option by the Company. The Property is subject to a two percent net smelter return and a fifteen percent net carried interest. The latter interest does not receive payment until capital expenditures have been recovered with interest. A finder's fee of \$132,500 was paid with respect to the Newman Todd project by cash of \$66,250 and issuance of 228,448 shares at a fair value of \$0.29 per share.

The Company also owns an effective 35% interest in certain other claims adjacent to the Newman Todd Project.

Confederation Lake (Mitchell & Belanger) Claims, Ontario

The Company holds certain claims located in the Red Lake Mining District of Ontario. These claims have a nominal carrying value.

7. DISTRIBUTION TO SHAREHOLDERS

On December 19, 2012, the Company received an order from the Supreme Court of British Columbia approving the distribution of 21,086,656 Magna common shares. Upon completion of the distribution, the Company's ownership interest in Magna decreased from approximately 56.47% to approximately 16%. As of December 19, 2012, the Company determined that it no longer controlled Magna, and, as a result, would no longer consolidate the operations of Magna. As a result, the Company derecognized the carrying amounts of assets, liabilities and non-controlling interest related to Magna and recognized its retained investment in Magna at its fair value. The difference between the fair and carrying values at the date of deconsolidation was recorded as a loss of \$392,135 on the statement of operations and comprehensive loss, as the Company was required to recognize the fair value of the Magna's net assets which had a book value of \$1,982,280 and reserves of \$710,221 and accumulated comprehensive income of \$3,442. The fair value was based on 40.94% of fair market value of Magna. The spin out was accounted for as a return of capital with a \$634,565 charge to share capital.

CONFEDERATION MINERALS LTD.

Notes to the Condensed Consolidated Interim Financial Statements

For the year ended June 30, 2013

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

7. DISTRIBUTION TO SHAREHOLDERS (continued)

The fair value of the Magna shares transferred under the Distribution is summarized in the table below:

	December 19, 2012 \$
Cash	54,897
Short term investment	930,037
Prepaid	25,123
Receivables	44,368
Intangible assets	659,278
Exploration and evaluation assets	96,667
Accounts payable and accrued liabilities	(260,370)
Fair value of the Magna's net assets	1,550,000
Fair value of the net assets distributed to shareholders	634,565

The following table summarizes the results of discontinued operations for the three months ending September 30, 2013 and 2012.

For the Three Months Ended September 30,	2013	2012
	\$	\$
General and administrative expenses	-	(138,585)
Interest and miscellaneous income	-	3,471
Income tax expenses	-	28,559
Loss from discontinued operations	-	(106,555)

8. SHARE CAPITAL**a) Authorized:**

Unlimited common shares with no par value

b) Issued Share Capital:

At June 30, 2013, there were 65,628,532 common shares issued and outstanding (June 30, 2013 – 65,278,532).

c) Common Shares:**Fiscal 2014**

In July 2013, 350,000 shares were issued when 350,000 stock options were exercised for proceeds of \$87,500.

CONFEDERATION MINERALS LTD.

Notes to the Condensed Consolidated Interim Financial Statements

For the year ended June 30, 2013

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

8. SHARE CAPITAL (continued)**Fiscal 2013**

In June 2013, the Company closed a private placement consisting of 10,000,000 units at a price of \$0.10 per unit for gross proceeds of \$1,000,000, of which \$750,000 was received subsequent to June 30, 2013. Each unit consisted of one common share and one share purchase warrant with each warrant entitling the holder to purchase one additional common share of the Company at a price of \$0.15 per share for a period of one year from the closing of the offering. The Company paid a finder's fee of \$54,000 and issued 540,000 warrants with the same terms as the private placement warrants. The fair value of these warrants was calculated at \$92,000 using the Black-Scholes pricing model.

On November 13, 2012, the Company issued 150,000 shares at a fair value of \$0.31 per share for the Newman Todd project. See note 6 for details.

d) Share-based Payments

The Company has a stock option plan whereby the Company is authorized to grant options to executive officers and directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common shares of the Company. Under the plan, the exercise price of each option will not be less than the discounted market price of the common shares as permitted by the TSX Venture Exchange policies. The options can be granted for a maximum term of 5 years.

Option-pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility. Changes in the underlying assumptions can materially affect the fair value estimates and therefore in management's opinion, existing models do not necessarily provide a reliable measure of the fair value of the Company's stock options.

During the three months ended September 30, 2013, the Company granted 500,000 (2012 – 200,000) stock options with a weighted average exercise price per option granted of \$0.24 (2012 \$0.45) and total share-based payment expense of \$52,000 (2012 – 16,412).

CONFEDERATION MINERALS LTD.
