CONFEDERATION MINERALS LTD.

Notes to the Condensed Interim Financial Statements
For the Nine Months Ended March 31, 2016
(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND CONTINUANCE OF OPERATIONS

The Company was incorporated on November 3, 2005 under the Business Corporations Act (British Columbia) as “Medina Ventures Inc.”, changed its name to “Sienna Minerals Ltd.” on April 26, 2006 and changed its name to Confederation Minerals Ltd. on April 11, 2007. The Company's principal business activity is the exploration of exploration and evaluation assets.

The amounts shown as exploration and evaluation assets represent net costs to date, less any amounts amortized and/or written off, and do not necessarily represent present or future values. The recoverability of these amounts and any additional amounts required to place these assets into commercial production are dependent upon certain factors. These factors include the existence of ore deposits sufficient for commercial production and the Company's ability to obtain the required additional financing necessary to develop these assets.

The Company has working capital deficit as at March 31, 2016 of \$479,725 and an accumulated deficit of \$10,541,466. These financial statements have been prepared under the assumptions of a going-concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The Company has incurred losses from inception and does not currently have the financial resources to complete development in the long-term. As at March 31, 2016, the Company had not advanced its properties to commercial production. The Company's continuation as a going concern is dependent upon the successful results from its exploration activities and its ability to attain profitable operations and generate funds from there and/or raise equity capital or borrowings sufficient to meet current and future obligations. These material uncertainties cast significant doubt about the Company's ability to continue as a going concern.

Failure to arrange adequate financing on acceptable terms and/or achieve profitability may have an adverse effect on the financial position, results of operations, cash flows and prospects of the Company. These financial statements do not give effect to adjustments to assets or liabilities that would be necessary should the Company be unable to continue as a going-concern.

The financial information is presented in Canadian Dollars (CDN\$), which is the functional currency of the Company.

The head office and principal address of the Company are located at Suite 1980, 1075 West Georgia Street, Vancouver, British Columbia, V6E 3C9.

2. BASIS OF PRESENTATION

Statement of compliance

These condensed interim financial statements for the nine months ending March 31, 2016 have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”) using accounting policies consistent with IFRS as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”), on a basis consistent with the significant accounting policies disclosed in note 3 of the most recent annual consolidated financial statements as at and for the year ended June 30, 2015 as filed on SEDAR at www.sedar.com. These condensed interim financial statements do not include all of the information required for full annual financial statements and were approved and authorized for issue by the Board of Directors on May 26th, 2016.

CONFEDERATION MINERALS LTD.

Notes to the Condensed Interim Financial Statements
For the Nine Months Ended March 31, 2016
(Expressed in Canadian Dollars)

2. BASIS OF PRESENTATION (continued)**Basis of measurement**

These condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as at fair value through profit or loss ("FVTPL") and available-for-sale that have been measured at fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Critical accounting estimates and assumptions

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive loss/income in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

Exploration and Evaluation Expenditures

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after the expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized is written off in the profit or loss in the period the new information becomes available.

Income Taxes

Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Company recognizes liabilities and contingencies for anticipated tax audit issues based on the Company's current understanding of the tax law. For matters where it is probable that an adjustment will be made, the Company records its best estimate of the tax liability including the related interest and penalties in the current tax provision. The Company believes it has adequately provided for the probable outcome of these matters; however, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

In addition, the Company recognizes deferred tax assets relating to tax losses carried forward to the extent there are sufficient taxable temporary differences (deferred tax liabilities) relating to the same taxation authority and the same taxable entity against which the unused tax losses can be utilized. However, utilization of the tax losses also depends on the ability of the taxable entity to satisfy certain tests at the time the losses are recouped.

2. BASIS OF PRESENTATION (continued)

Share-based Payment Transactions

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in note 7.

New Accounting Standards and Interpretations

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for the Company's fiscal years beginning on or after July 1, 2015. The following standards and interpretations are relevant to the Company's financial statements but are not yet effective:

IFRS 9 Financial Instruments

IFRS 9 Financial Instruments is part of the IASB's wider project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. The standard is tentatively effective for the Company's fiscal period beginning July 1, 2018.

3. MARKETABLE SECURITIES

On December 19, 2012, the Company received an order from the Supreme Court of British Columbia approving the distribution of 21,086,656 Potash common shares to the Company's shareholders. The fair value of the 8,000,000 shares retained by the Company was determined at \$426,313 and recognized as marketable securities designated as available-for-sale instruments. During the nine months ended March 31, 2016, the Company recognized an unrealized holding loss of \$467,711 (June 30, 2015 - \$17,830).

Pursuant to an option agreement dated November 19, 2010 with Redstar Gold Corp. ("Redstar"), the Company was granted an option to acquire up to 70% of Redstar's Newman Todd project (the "Newman Todd Project"), located in the Red Lake Mining District of Northern Ontario.

During the year ended June 30, 2015, the Company completed the option to earn a 50% interest in the Newman Todd Project by paying the last installment of \$75,000 of the total \$250,000 required to be paid, issuing 150,000 shares, the last tranche of a total of 500,000 shares issued, and completing its requirement to incur a cumulative of \$5,000,000 of work expenditures on the Property.

To exercise the option to earn a further 20% interest, thereby increasing its overall interest to 70%, the Company will be required to produce, at its own cost, a preliminary assessment of the Property and issue a further 500,000 shares to Redstar on or before the sixth anniversary of the Agreement, subject to minimum annual expenditures of \$250,000 during the last three years of the option period. The parties also have agreed to form a joint venture following the exercise of the option by the Company. The Property is subject to a two percent net smelter return and a fifteen percent net carried interest. The latter interest does not receive payment until capital expenditures have been recovered with interest.

b) Issued Share Capital:

At March 31, 2016, there were 67,778,532 common shares issued and outstanding (June 30, 2015 – 67,778,532).

c) Common Shares:**Fiscal 2015**

In April 2015, the Company issued 1,000,000 units at a price of \$0.05 per unit for gross proceeds of \$50,000. Each unit consisted of one common share and one common share purchase warrant. Each warrant entitles the holder to purchase one common share at an exercise price of \$0.05 per common share until April 26, 2016.

In February 2015, the Company issued 500,000 shares at a fair value of \$0.07 per share for the Newman Todd project. See note 5 for details.

d) Share-based Payments

The Company has a stock option plan whereby the Company is authorized to grant options to executive officers and directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common shares of the Company. Under the plan, the exercise price of each option will not be less than the discounted market price of the common shares as permitted by the TSX Venture Exchange policies. The options can be granted for a maximum term of 5 years.

7. SHARE CAPITAL (continued)

Option-pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility. Changes in the underlying assumptions can materially affect the fair value estimates and therefore in management's opinion, existing models do not necessarily provide a reliable measure of the fair value of the Company's stock options.

During nine months ended March 31, 2016, the Company granted nil (2015: – nil) stock options.

The continuity of stock options for the nine months ended March 31, 2016 is as follows:

	Number of Options Outstanding	Weighted Average Exercise Price (\$)
Balance June 30, 2014	5,000,000	0.48
Forfeited	(850,000)	0.25
Balance June 30, 2015	4,150,000	0.53
Forfeited	(1,600,000)	0.45
Balance March 31, 2016	2,550,000	0.58

The options outstanding and exercisable at March 31, 2016, are as follows:

Number Outstanding	Exercise Price (\$)	Remaining Contractual Life (Years)
150,000	0.84	0.32
2,000,000	0.57	0.84
400,000	0.54	0.96
2,550,000		0.82

The fair value of share options awarded to officers, directors and consultants were estimated on the dates of award using the Black-Scholes option pricing model. There were no options awarded for the nine months ended March 31, 2016 and March 31, 2015.

(a) Lawrence Dick, the CEO of the Company provided management services throughout the year.

(b) Pursuant to a management and advisory agreement with Baron Global Financial Canada Ltd. ("Baron"), Baron agreed to act as corporate advisor and Chief Financial Officer of the Company in return for a monthly fee.

In March 2012 the Company entered into an agreement with a related party to provide business consulting services. The consultant will be paid a monthly fee of \$10,000 for an indefinite term. If the consulting agreement is terminated, the party will receive \$240,000.

During the year ended June 30, 2015, the consulting agreement was amended to a monthly fee of \$1 per month and no termination amount payable. In return the consultant received 1,000,000 shares of American Potash at a fair value of \$70,000. As part of the amended agreement the amount owing to the consultant was capped at \$50,000 which resulted in a forgiveness of debt in the amount of \$2,381.

11. COMMITMENTS

In March 2012 the Company entered into agreements with three different consultants, one of which is still a related party, to provide business consulting services. Each of the three consultants will be paid a monthly fee of \$10,000 for an indefinite term. If any of the consulting agreements are terminated, the party will receive \$240,000. During the year ended June 30, 2015, these consulting agreements were amended to a monthly fee of \$1 per month and no termination amount payable.
